WSSCC World Toilet Day Champion challenge

Background

As part of the celebration for World Toilet Day, WSSCC is organizing a photo contest for members called the “World Toilet Day Champion challenge”. We want to showcase the diverse and meaningful work that our members are doing within their communities by engaging and rallying them to participate and raise awareness on sanitation-related issues.

Guidelines

Take a photograph that shows an activity you are doing to mobilize your community on sanitation and proper use of toilets. The photo must also capture the theme of this year’s World Toilet Day, “When nature calls”. Additionally, please include a description of the activity that is taking place in the photograph.

The photo should be in high-resolution and must have a jpeg, .jpg, or .png format. Finally, the photo must be recent (taken this year) and should not have been used or won in another photo contest.

Due to the many photos that we will be receiving from the members we encourage the submission of one picture only from each individual member. Send the picture as an attachment to members@wsscc.org.

Prize

After the final judgement is made, the contest winner will be notified by email. The winner of the challenge will be awarded a high resolution digital camera. Additionally, the winning photo will be featured in the Executive Director’s presentation on World Toilet Day at the United Nations Palais des Nations in Geneva.

Copyright

The contestants will retain the right of ownership of the photo. However, by entering in the contest WSSCC will have the license to use the photos in its website, newsletters and other non-profit activities.

Deadline

Participants are encouraged to send their photos by midnight on Wednesday, 14th November 2018 CET (Central European Time). Any submissions sent in after the challenge deadline will not be considered.

For more information on the photo contest, please send an e-mail to members@wsscc.org.
